

***QUESTIONS AND ANSWERS  
ROUND 2***

Q.1. Would a combined, solar thermal - CHP system be an acceptable system to propose under this solicitation, or would it need to wait for a solicitation against the Renewables Research subject area?

A.1. The [Grant Solicitation and Application Package](#) for Advanced Generation, Combined Heat & Power Systems does not exclude solar thermal CHP systems. All Applicants should review the Evaluation Criteria to assess the responsiveness of their proposal and its relative competitiveness.
